

# Heat Pump Water Heater Installer Resources

These tools and resources from Comfort Ready Home and Hot Water Solutions will help prepare you to sell and install more heat pump water heaters (HPWHs).

## On-Demand Online Training

Comfort Ready Home offers a **two-part on-demand course** that provides a full overview of HPWHs:

1. **Heat Pump Water Heater Opportunities** offers a business case and value proposition for selling HPWHs, and helps you identify qualifying homes.
2. **Heat Pump Water Heater Installation Considerations** provides specific technical training and considerations for installers.

Hot Water Solutions offers **two on-demand training courses**:

1. **Technology Overview & Customer Solutions Training** is an introductory course to gain awareness and understanding of HPWHs.
2. **All Manufacturer Technical HPWH Training** is an in-depth course focused on the unique technical aspects of specific brands, intended to help you select the best tank for each household's needs.

## HPWH Product Guide

Comfort Ready Home's **Heat Pump Water Heater Product Guide** encourage homeowners to learn about heat pump water heaters and helps them determine if they are a good fit for their home.

## Demystifying Energy-Efficiency Incentives

The Inflation Reduction Act includes new incentives for homeowners who make energy-efficiency upgrades. **This one-pager** will help your customers understand the benefits that are currently available.

## Heat Pump Water Heater Image Library

Hot Water Solutions' **photo library** contains images you are free to use in your website, social media, email and print marketing.
